Without Spending A Small Fortune...

General Anatomy Collections 1 & 2
- For Windows
- For Macintosh

Tired of ho-hum documents...and boring presentations? Now you can add power and punch to make them come alive...with the Medical Illustration Library.

Anatomy Collections I & II, the first two titles in the library, contain 289 high-quality, anatomically correct drawings created by the renowned medical illustrator Diane Abeloff.

Anatomy Collections I & II can be purchased individually for only $99 each. Or you can purchase both Collections at the Special Introductory Price of just $179. That’s a savings of almost $20!
