ANNOUNCEMENTS

ERRATUM

Cover picture: Schematic illustration depicting development of segmental glomerulosclerosis in Fawn-hooded rat. Left, normal glomerulus; right, damaged glomerulus with paraglomerular space (shown in yellow), which contains sclerotic tuft remnants. For a full description, see the related article in this issue by Wilhelm Kriz *et al.*, pp 381–396.

ATTENTION ALL MANUSCRIPT CONTRIBUTORS The Journal of the American Society of Nephrology will assess excess page charges on articles and brief communications that exceed four pages in length at a charge of \$60.00 per printed page. Invited reviews, editorials, and special features will be exempt.
