

REGULAR ARTICLES

Cell and Transport Physiology

- Effect of Volume Expansion on the Paracellular Flux of Lanthanum in the Proximal Tubule
Carla R. Ramsey, Theresa J. Berndt, Franklyn G. Knox 1147

- Biochemical and Ultrastructural Characterization of Fluid Transporting LLC-PK1 Microspheres
Knut-Jan Andersen, Arvid B. Maunsbach, Erik Ilsø Christensen 1153

Hemodynamics, Hypertension, and Vascular Regulation

- Renal Endothelin System in Polycystic Kidney Disease
Berthold Hocher, Rüdiger Zart, Anja Schwarz, Volker Vogt, Claude Braun, Christa Thöne-Reineke, Nicole Braun, Hans-Hellmut Neumayer, Klaus Koppenhagen, Christian Bauer, Peter Rohmeiss 1169

Hormones, Growth Factors, and Cell Signaling

- cDNA Cloning and Expression of a Novel Family of Enzymes with Calcium-Independent Phospholipase A₂ and Lysophospholipase Activities
Didier Portilla, Mark D. Crew, David Grant, Ginette Serrero, Linda M. Bates, Gonghe Dai, Michael Sasner, Jun Cheng, Andres Buonanno 1178

Immunology and Pathology

- IL-4 and IL-13 Augment Cytokine- and CD40-Induced RANTES Production by Human Renal Tubular Epithelial Cells *in Vitro*
Joan G. M. Deckers, Simone De Haij, Fokko J. van der Woude, Sandra W. van der Kooij, Mohamed R. Daha, Cees van Kooten 1187

- Interleukin-15, a Leukocyte Activator and Growth Factor, Is Produced by Cortical Tubular Epithelial Cells
Michal Weiler, Boris Rogashev, Tom Einbinder, Michael J. Hausmann, Jacob Kaneti, Cidio Chaimovitz, Amos Douvdevani 1194

- Upregulation of Renal and Systemic Cyclooxygenase-2 in Patients with Active Lupus Nephritis
Susanna Tomasoni, Marina Noris, Sergio Zappella, Eliana Gotti, Federica Casiraghi, Samantha Bonazzola, Ariela Benigni, Giuseppe Remuzzi 1202

- In Progressive Nephropathies, Overload of Tubular Cells with Filtered Proteins Translates Glomerular Permeability Dysfunction into Cellular Signals of Interstitial Inflammation
Mauro Abbate, Carla Zoja, Daniela Corna, Matteo Capitanio, Tullio Bertani, Giuseppe Remuzzi 1213

Mineral Metabolism and Bone Disease

- Mineralized Bone Loss at Different Sites in Dialysis Patients: Implications for Prevention
Hans-Christoff Schober, Z-H. Han, A. Joseph Foldes, Mei-Shu Shih, D. Sudhaker Rao, Raffaella Balena, A. Michael Parfitt 1225

Molecular Medicine, Genetics, and Development

Involvement of R-Cadherin in the Early Stage of Glomerulogenesis

Shin Goto, Eishin Yaoita, Hiroaki Matsunami, Daisuke Kondo, Tadashi Yamamoto, Katsutoshi Kawasaki, Masaaki Arakawa, Itaru Kihara

1234

Pathophysiology of Renal Disease

Potassium Citrate/Citric Acid Intake Improves Renal Function in Rats with Polycystic Kidney Disease

George A. Tanner

1242

Characterization of Dimethylguanosine, Phenylethylamine, and Phenylacetic Acid as Inhibitors of Ca²⁺ ATPase in End-Stage Renal Failure

Joachim Jankowski, Heinrich Luftmann, Martin Tepel, Dieter Leibfritz, Walter Zidek, Hartmut Schlüter

1249

Clinical Nephrology

Outcome of Renal Replacement Therapy in Antineutrophil Cytoplasmic Antibody-Associated Systemic Vasculitis

Andrew Allen, Charles Pusey, Gill Gaskin

1258

Dipyridamole Decreases Renal Phosphate Leak and Augments Serum Phosphorus in Patients with Low Renal Phosphate Threshold

Dominique Prié, Françoise Benqué Blanchet, Marie Essig, Jean-Pierre Jourdain, Gérard Friedlander

1264

Familial Aggregation of Renal Disease in a Population-Based Case-Control Study

Hsien-Hsien Lei, Thomas V. Perneger, Michael J. Klag, Paul K. Whelton, Josef Coresh

1270

Dialysis

Intermediate-Density Lipoprotein as an Independent Risk Factor for Aortic Atherosclerosis in Hemodialysis Patients

Tetsuo Shoji, Yoshiki Nishizawa, Takahiko Kawagishi, Koichi Kawasaki, Hiromichi Taniwaki, Tsutomu Tabata, Takashi Inoue, Hirotoshi Morii

1277

Increased Peritoneal Membrane Transport Is Associated with Decreased Patient and Technique Survival for Continuous Peritoneal Dialysis Patients

David N. Churchill, Kevin E. Thorpe, Karl D. Nolph, Prakash R. Keshaviah, Dimitrios G. Oreopoulos, Denis Pagé

1285

Transplantation

Neoral® Conversion from Sandimmune® in Maintenance Renal Transplant Patients: An Individualized Approach

John J. Curtis, Melissa Lynn, Patricia A. Jones

1293

The Prognostic Significance of Specific Arterial Lesions in Acute Renal Allograft Rejection

Volker Nickeleit, Eleftherios C. Vamvakas, Manuel Pascual, B. James Poletti, Robert B. Colvin

1301

High Rate of Acute Rejections in Renal Allograft Recipients with Thrombophilic Risk Factors

Sefan Heidenreich, Carla Dercken, Christian August, Hans Georg Koch, Ulrike Nowak-Göttl

1309

BRIEF COMMUNICATIONS

Silent Infection in Clotted Hemodialysis Access Grafts

J. Carlos Ayus, David Sheikh-Hamad

1314

β-Adrenoceptor-Stimulated Renin Release Is Blunted in Old Rats

Chris Baylis, Kevin Engels, William H. Beierwaltes

1318

continued on next page

REVIEW

- Protecting Single-Kidney Allografts from Long-Term Functional Deterioration
Giuseppe Remuzzi, Norberto Perico 1321

DISEASE OF THE MONTH

- Primary Focal Segmental Glomerulosclerosis
Stephen M. Korbet 1333

MILESTONES IN NEPHROLOGY

- Renal Tubular Secretion of Potassium in the Normal Dog [Berliner RW, Kennedy TJ Jr: *Proc Soc Exp Biol Med* 67: 542–545, 1948 (with comments by Robert W. Berliner and Gerhard Giebisch)] 1341

ANNOUNCEMENTS

Cover picture: Kidney from early autologous phase of passive Heymann nephritis with filtered plasma protein (green) in renal tubules and MHC-II-(A, B, and C) and ED-1-positive cellular infiltrates (red) in adjacent tubulointerstitium. For a full description, see the related article in this issue by Mauro Abbate *et al.*, pp 1213–1224.

ATTENTION ALL MANUSCRIPT CONTRIBUTORS The Journal of the American Society of Nephrology will assess excess page charges on articles and brief communications that exceed four pages in length at a charge of \$60.00 per printed page. Invited reviews, editorials, and special features will be exempt.

The Journal of the American Society of Nephrology, ISSN 1046-6673, is the official journal of the American Society of Nephrology and is published 13 times a year, bimonthly in September, by Williams & Wilkins, 351 West Camden St., Baltimore, MD 21201-2436. Periodicals postage paid at Baltimore, MD and at additional mailing offices. Subscription rates: \$279 U.S. (\$344 for delivery to other countries); institutions: \$389 U.S. (\$454 for delivery to other countries); in-training: \$112 U.S. (\$177 for delivery to other countries); single copy: \$32 (\$38 foreign). Subscription prices subject to change. Annual dues include \$75 for journal subscription. To order, call 1-800-638-6423 from anywhere in the U.S. In Maryland, call 1-800-638-4007. The GST number for Canadian subscribers is 123394371. C.P.C. International Publication Mail Number 0953814. Country of origin: USA. POSTMASTER: Send address changes to the Journal of the American Society of Nephrology, 351 West Camden St., Baltimore, MD 21201-2436. The Journal has been indexed by CURRENT CONTENTS/CLINICAL MEDICINE, CURRENT CONTENTS/LIFE SCIENCES, INDEX MEDICUS, BIOSIS, and EXCERPTA MEDICA. Copyright © 1998 by the American Society of Nephrology.
